

Why PAA at an Ambulatory Surgery Center?

Physician-owned company with local headquarters

A Large pool of MDs and CRNAs available

Zero private equity influence- all decisions made by the physician board

Internal billing and corporate leadership

True Partners with Stakeholders

Proven success at multiple existing and new ASCs

Flexible screening criteria

Willingness to participate in bundles

Exponential growth of ambulatory surgery - the future is now

Increasing the case types and volume performed in a free-standing ambulatory setting

Early adoption of latest clinical modalities to improve patient safety and outcomes
